Subject: Upcoming ARSG Meetings

Dear Stakeholders – We will not be having an August ARSG meeting next week.

However, in September we will probably have a pretty full agenda. We will meet on the fourth Tuesday of the month, the 23rd, probably from 1:30 – 5:00. One agenda item will be Rob Runkel from USGS discussing the water quality model he has been working on for BLM and EPA. We plan to meet at Silverton Town Hall because we may have a little larger attendance than usual.

That same Tuesday evening, EPA is having an availability session at 6:30 at Town Hall. There may be a short presentation at the beginning, but the purpose of the meeting is give people in the community and anyone else with ARSG the opportunity to talk one on one informally with representatives of EPA.

The next evening, Wednesday the 24th, from 6:30 – 8:00, the La Plata County Board of County Commissioners have set up a public meeting in their regular meeting room at the county courthouse in Durango with EPA to learn more about water quality issues and EPA's activities in the upper Animas. ARSG will give a short presentation at the beginning of the meeting to provide some history and context about these issues.

In addition, EPA, BLM, and USGS will be in Silverton most of that week in September doing a lot of sampling.

We just wanted to give everyone a heads up so you could get some of these events on your calendars.

Peter Butler
